PRODUCT END OF LIFE NOTIFICATION

Inertia ZJ1000 Series Fire Detection & Gas Release Panels

Dear customer,

This is to advise you that the Inertia ZJ1000 Series fire detection and gas release panels can no longer be supported. Due to the age of these panels, spare parts are no longer available for most of the panel circuit boards.

In the event that a ZJ1000 Series panel is faulty or requires repairs, you should contact your nearest Notifier Inertia Sales Department to determine the appropriate course of action. Our trained sales staff will advise you whether repairs are possible or alternatively, discuss upgrading your panel to a new AS4428.1 compliant system.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'S. J. ...', written in a cursive style.
