

Date: 7<sup>th</sup> November, 2007

**Affected Products:** IFS-888

Notifier is pleased announce that here has been an update to the IFS-888 8 zone conventional fire panel.

The changes include:

- Added auxiliary relay board to provide change-over contacts for alarm, fault and isolate.
- ECN 06-006 changes to rectify potential reliability problems.
- Improved reliability of the PSU.
- Improved quality of connectors.
