

Date: 24 June 2008

Affected Products: 10512 – Notifier BacNet Gateway

BacNet gateway software v3.9.6 has now been released and includes many updates to rectify several known issues and includes support for upcoming product releases. Notifier recommends that all sites utilizing the BacNet gateway be upgraded to the latest software.

For detailed upgrade instructions please see the release notes included with the software.

If you have any question please do not hesitate to contact me.

Sincerely,

James Edwards
Product Manager
